System Director's Report to the PLLS Board

Date: September 2023

Greetings,

Here is my report for the September 2023 PLLS Board Meeting. Please let me know if there are any points you would like me to elaborate on during the meeting.

General Updates

- The September Advisory Committee meeting was held on September 12th, 2023 at the Matheson Memorial Library in Elkhorn.
- Topics of discussion included a number of technology-related updates & issues, ongoing discussion of preferences with respect to the system's approach to providing Youth Services coordination, and a number of informational updates.
- PLLS will host a fall banquet at the Evergreen Golf Club in Elkhorn on November 16th. This dinner event will feature a pre-meal cocktail hour, dinner, and a speaker. This year's speaker will be Stef Morrill. Stef is the Executive Director of River Valley Commons, and formerly spent over 20 years in various leadership positions in the Wisconsin library community.

2024 System Budget Introduction

- We have prepared a draft 2024 budget for your review.
- This budget expects \$1,799,071 in operating expenses.
- The budget also includes a little over 7M in county funding that is passed through the library system and other special funding such as grants and member library monies committed for specific purposes.
- Some lines have been consolidated with others, split, moved, or renamed since last year's budget, either for clarity or to better represent the nature of the income/expense.
- A description for each numbered budget line is provided in a series of pages located at the back of the budget document.
- New items for 2024 include some supplemental accident insurance available through WRS, and placeholder lines for one-time expenses related to renovating our delivery service or building projects. Both of these placeholders are "just in case" additions.

- Expected delivery-related expenditures will probably be fluid over the next couple of months, as we have begun discussions with the delivery vendors available in our area, and may recommend changes prior to the start of (or during) the 2024 fiscal year. In this case, we will present a revision request to the board.
- The current budget assumes a full-time consultant in the area of youth services and inclusive services. This was done to ensure there is funding available for a full-time position, should the system choose to hire one. It is recommended that we wait to make any final decision on contract position vs. FTE until early 2024.

Updated Position Descriptions for System Staff

- We have prepared new position descriptions for the current staff positions, as well as a new position description for a Youth Services and Inclusive Services Coordinator.
- The position descriptions focus on defining the "big ticket" roles & responsibilities of each position. A common set of general qualifications has been developed for all positions.
- The duties of the Youth Services and Inclusive Services Coordinator are based on recent feedback solicited from library staff serving youth among the member libraries of the system.

Recommended Staff Compensation Option: Salary Schedule Proposal

- We have prepared a salary schedule proposal for your consideration. *The figures in this proposal are currently integrated into the staff salary figures in the Draft 2024 System Budget document.*
- The salary schedule proposal is intended to solve a few longstanding issues at once:
 - Updating position descriptions and job titles;
 - Formally identifying whether positions are exempt or non-exempt;
 - Establishing salary ranges for each position that are consistent with positions elsewhere in Wisconsin;
 - Enabling a change in the local IT service model that will lower costs to member libraries;
 - Ensuring PLLS is competitive in attracting and retaining a skilled workforce.
- The salary ranges in this proposal are based on the following research:
 - An investigation of comparable positions at other library systems as of December

31, 2022.

- An investigation of comparable municipal and county positions as of summer 2023.
- The final report of a <u>Wisconsin Public Library Staff Compensation Study</u>, commissioned by the System and Resource Library Administrators Association of Wisconsin (SRLAAW) and the Wisconsin DPI. The study was performed by the <u>Carlson Dettmann</u> agency, in July of this year.
- Recommended starting steps associated with each position are noted on each position-specific slide and indicated by a thick blue border on the proposal table slide. Starting positions within salary ranges have been adjusted forward with respect to four positions: the Lead Consultant / Assistant Director, IT Engineer, Milton Office Manager, and IT Technician.

An Alternative to the Salary Schedule Option

- We have also prepared an alternative staff compensation table which includes a 6% wage increase for all employees. This model could be substituted into the budget in lieu of the proposed salary schedule.
- If the board prefers a set percentage-based model this year, I recommend that the following be included in any motion:
 - Approval of the new position descriptions;
 - Inclusion of the YS and Inclusive Services staff position at the salary rate in the proposed schedule to maintain a budgeted option to hire;
 - Authorization of a fully-independent compensation study by the Carlson Dettmann agency in 2024 at a cost of \$15,000.

This ends my report. Respectfully submitted,

Steve Ohs, Director Prairie Lakes Library System

Proposed 2024 Salary Schedule

Prairie Lakes Library System

Overview

The 2024 system budget process presents a chance to address a number of annual challenges, faced by each of the pre-merger library systems, with respect to staff compensation. A strong 2023 net position, confirmed increases in state aid in 2024-2025, and consolidation of operating expenses as a result of the merger provides an opportunity to make these fixes *while reducing the overall percentage of system operating expenses on staff compensation*.

What does this accomplish?

- Updated position descriptions and more realistic job titles.
- Definition of exempt and non-exempt positions.
- Predictable, competitive salary steps and ranges for budgets, job advertisements, and employee evaluations.
- Elimination of an aging IT billing & compensation structure originating in 2015.
- Preserves an annual option for market or inflation-based corrections to staff compensation.

Guiding Principles

- Member libraries want (and expect) high quality services.
- Provision of high quality services requires high quality staff \rightarrow "Our product = our people."
- Minimally, we have to compete on a statewide basis to attract and retain high-level employees.
- Relevant insights from strategic planning:

IT Billing & Compensation

- Member libraries are billed hourly for local IT work.
- A portion of member library local IT income is paid to IT team members (apportioned by seniority) and a portion goes to PLLS as other income.
- Currently PLLS receives \$74,250 for providing IT service for the SWLS
- A portion (\$42,000) of this is budgeted to supplement IT salaries directly for the work they do with SWLS.
- This practice was initiated in 2006 in an attempt to keep IT worker compensation competitive within the market.
- If adopted, this salary schedule would increase base salaries of IT workers so that the hourly billing service to member libraries can be phased-out in favor of a model that would provide each member library with a number of free local IT support hours to use throughout the year.

Options

- 1. Recommended Option Board action to approve updated position descriptions, implement new salary schedule as presented (or amended), and approve the 2024 draft budget as presented (or amended).
