

Childhood is the best time to start language learning.

So why not help your youngest patrons make the most of these prime learning years? With the click of a button, Little Pim – the award-winning language-learning solution for children – can be seamlessly added to your Mango collection.

Respected Methodology

Each lesson incorporates the Entertainment Immersion Method™, designed by Little Pim founder Julia Pimsleur Levine and leading neuroscientist, Dr. April Benasich, Director of the Rutgers Infancy Studies Lab.

Enhances Development

Early language learning enhances verbal development, reading, writing, and social skills. Little Pim's unique methodology introduces children to foreign language in a way that they can easily relate to and understand.

Relevant Content

Lessons incorporate words and activities that are actually relevant to a child's daily life, making the content fun and practical from the get-go. Themes include mealtime, naptime, and playtime.

Designed for Young Children

Little Pim is specifically designed for children ages 0-6. Each course features videos that teach 180 words and phrases, providing the essential building blocks of a foreign language.

Friendly & Fun

Building on a child's natural love of play, the videos feature real kids and lively animation to provide a captivating immersion experience. Kids fall in love with Little Pim, the animated panda who teaches the lessons, and don't even realize they are learning.

Easy to Access

Little Pim works just like the rest of the Mango system, so your patrons can access it anywhere with an internet connection. All parents need is a library card.

Little Pim can be easily added to your Mango subscription and is available in the following languages:

- Spanish
- French
- Italian
- German
- Mandarin Chinese
- Korean
- Japanese
- Hebrew
- Russian
- Arabic
- Portuguese
- English/ESL
